

Supplemental Information for:

**Climatic Variables Alone do not Determine Ungulate Community Composition in the
Afrotropics**

Table of Contents:

Title Page	Page 1
Figure S1	Page 2-3
Figure S2	Page 4-5

First Latent Variable

Second Latent Variable

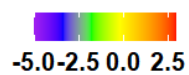

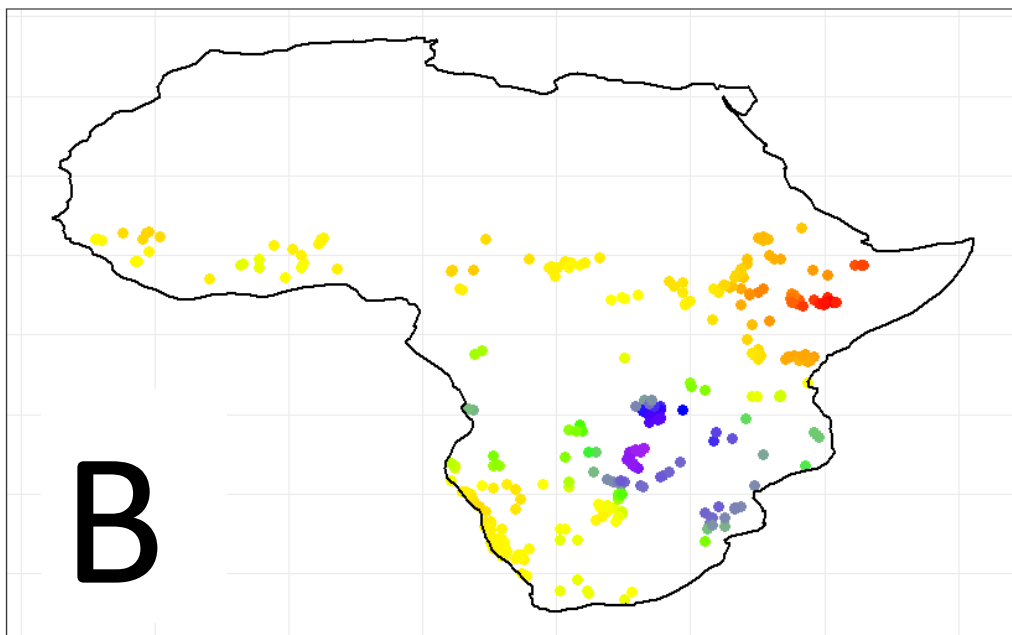

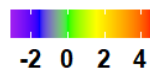

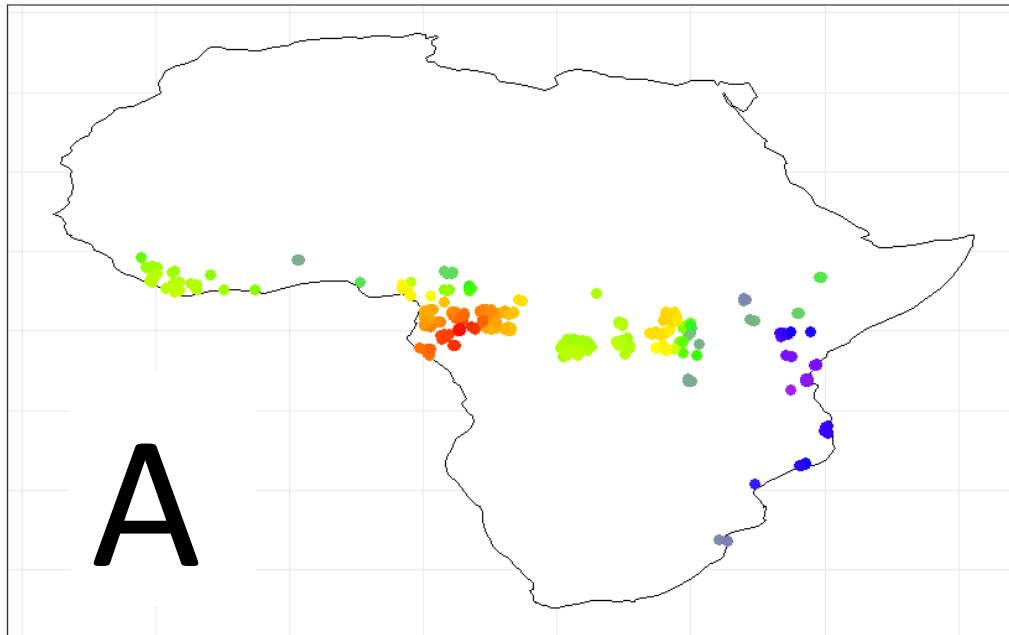

Figure S1. The raw site loadings values of the first (A, upper) and second (B, lower) latent variable from the Open Habitats model for all points in the model.

First Latent Variable

Second Latent Variable

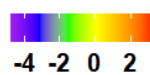

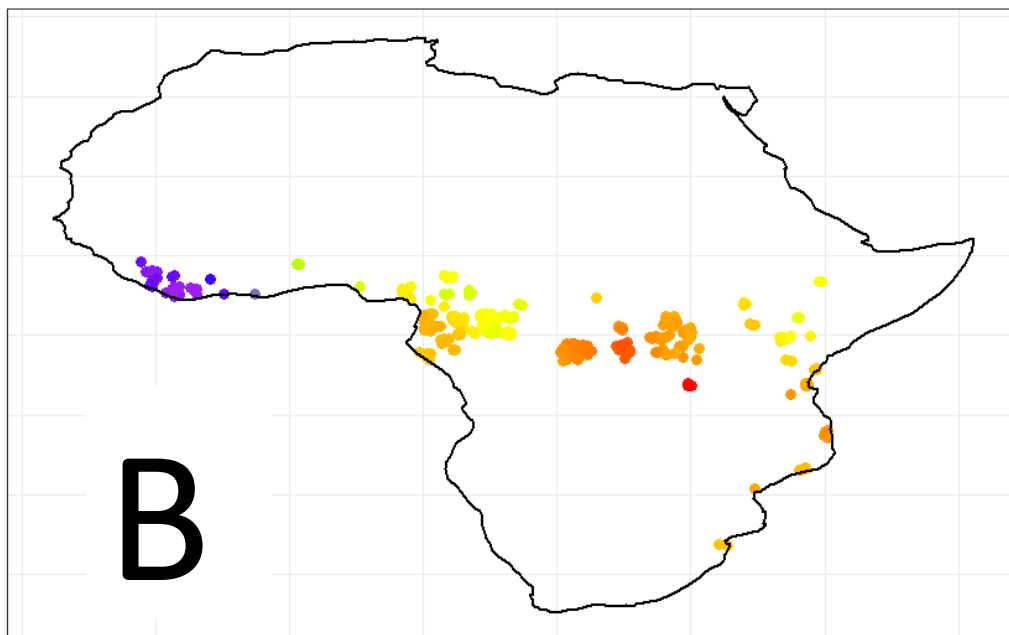

Figure S2. The raw site loadings values of the first (A, upper) and second (B, lower) latent variable from the Tropical Forests model for all points in the model.
